Every Woman Should Use **Town Talk Tablets for Comfort**

Women that are thin, pale, hollow-chested, sunken-cheeked who are losing flesh, can't sleep, have foul breath, bad taste in the mouth who worry, fret, have hysteria and crying spells, and are all teria and crying spells, and are all run down, have ailments produced by a diseased or impoverished condition of the blood. Their poor bodies need nourishment. Town Talk Tablets cure all these symptoms as if by magic. They cure the periodical sufferings that are peculiar to women. It makes them healthy women. It makes them healthy and happy, because it puts new life into their system, new energy into their veins, which nourishes the lungs, the heart, the kidneys, stomach, bowels and other organs. Here is a woman who has passed through the sufferings that thousands of women just now are experiencing. Mrs. N. A. Hatch of 80 Park Avenue,

Brockton, Mass., says:

For a long time I was in a terrible run-down condition with female trouble, which my physi-cians called different names. P suffered terribly at periods, and could get no relief. I heard of Town Talk Tablets which a number of my neighbors were taking, every one of whom had some-good report to make about them, good report to make about them, so I got a bottle. They helped me at once, so I got another. After the second the pains left me, and my old periodical suffering came no more. I kept at it, taking several bottles, but now am entirely cured. I do my own work, and never have a pain, I am gaining in strength and flesh work, and never have a pain, I am gaining in strength and flesh every day. There is cartainly nothing made that can equal Town Talk Tablets. \$1.05 a bottle. Mailed by Home Relief Laboratories, Boston, Mass.

How Much Can Your Team Pull?

This question will be more definite ly determined when the State Highway Department makes public the investigations now being conducted by Robert C. Barnett, economic engineer, who is determining the cost per ton mile on all types of Missouri roads. Mr. Barnett, is also estimating the different amounts of gasoline required to move automobiles and motor trucks over different grades. This data will be highly interesting and will be made the subject of a bullefin to be issued by the State Highway Department.
